

# Taking maintenance medications? Maybe ESC Pharmacy is right for you.

Express Scripts Canada Pharmacy® provides services that can help you better manage your maintenance medication prescriptions.

Maintenance medications – those are the drugs you take regularly, refill regularly and get ongoing renewals for – are an essential part of your healthcare. Finding a pharmacy with innovative solutions to meet your needs is important. ESC Pharmacy provides convenience and value-added services for your maintenance medication prescriptions, including:

- 24-hour access to pharmacist support, 365 days a year.
- Free medication delivery (Monday to Saturday) to a location of your choice.<sup>1</sup>
- A low dispensing fee of \$6.99 to help keep costs down.
- Enhanced packaging options for those on multiple medications.
- Automatic refills and renewal reminders to help manage your prescriptions.
- 90 days' supply (where appropriate), further lowering costs.

## Joining ESC Pharmacy is easy!

To help you get the best experience possible, here are the items we recommend you have on hand before you start:

- A 30-day supply for each maintenance drug you take. If you don't currently have a 30-day supply on hand, we recommend you pick one up from your current pharmacy before joining.
- At least one refill for each of your maintenance drugs on file to transfer. If you do not have any refills remaining, we recommend you visit your doctor to obtain a new prescription.
- Have your prescription drug benefit card available. Also have your spouse's prescription drug benefit card available if you are covered under their plan or they are covered under yours.
- Details on all maintenance medications you are currently taking.\*

**\*TIP:** All the information you need to transfer your prescriptions can be found on the label of your maintenance medications, including (1) your current pharmacy name and phone number, (2) Name and strength of medication, and (3) Prescribing doctor's name and contact information.
